Dear Sirs

Patents Act 1977: Search Report under Section 17(5)

I enclose two copies of my search report and a copy of the citations. As there will be some delay before I can obtain the foreign language source documents only the abstracts have been sent to you at this time. I will forward the full documents as soon as possible.

Plurality of invention

I consider that your application relates to more than one invention as follows:

- ♦ The invention as set out in independent claim 1 concerning the use of a smoothing capacitor with the known motor construction;
- ♦ The invention as set out in independent claim 3 concerning distinguishing the brush holders so as to ensure correct mounting in the end frame bracket; *and*
- ♦ The invention as set out in independent claim 5 concerning means for securing the brush holders in the end frame bracket.

My search report relates to the first invention only. If you want any of the other inventions searched, you should file a separate Patents Form 9/77 for each invention.
